RESTORE • REJUVENATE • RECONNECT

More than a place to stay — a community project built around connection, nature, wellbeing and service.

Private bushland • creek crossings • open space • quiet connection

WHAT WE ARE TRYING TO BUILD

A welcoming, non-judgmental retreat where service-connected people and families can breathe out, reconnect and leave feeling better than when they arrive.

FAMILY CONNECTION DAYS

Family Connection Days are designed to help families slow down and spend real time together away from screens, pressure and everyday noise.

The aim is simple: shared activity, practical learning, nature, food and conversations that help families feel closer and more supported.

WARRIORS ADVENTURE DAYS

Outdoor challenges, mentoring and teamwork designed to help young people build confidence, trust and respect.

The focus is on positive relationships between young people and the adults who support them — creating moments of pride, belonging and reflection.

COMMUNITY WELLBEING

Banks Creek Retreat can give approved groups, teams and families a quiet place to come out together before things become heavy.

It is about shared time, healthy connection and a reset away from work pressure — supporting the people who support others.

OUR APPROACH

Safe, welcoming experiences where people can arrive as they are.

Practical, affordable and grounded in nature.
Built around connection, resilience and belonging.

HOW TO HELP OR GET INVOLVED

Come as a family, organise an approved group visit, register interest in upcoming connection days, share the retreat with colleagues, or support the charity.
